

District and School Administration Daily Summary Reports

We have just loaded onto your system two new reports which assist District and School Administrators with a daily summary report. You may examine the current day or any previous day within the school year. Attendance, Discipline, Food Service and Health Services summary information is currently provided within the reports.

The district level allows an administrator to review district wide, school and school by grade summary information. The school level allows an administrator to review school and school by grade summary information.

Below is an example of a district summary.
