

WeBSIS Update – 03/24/2008

Instructor Classroom Activities / Assignment Comments and New Student Absent Assignments Report

Focus Group of Update: Teachers and Office Staff

Overview

Student documentation for each assignment and activity is now easier and more powerful as well as facilitating the needs of office staff as well.

Meeting Instructor Documentation Needs

Teachers now have specific areas where to enter separate parent – guardian and internal comments for each classroom activity / assignment. This modification allows a teacher to easily communicate specific student assignment information to parents and students through the parent and student portal applications. This also allows for the automatic generation of classroom assignment information for students who are absent for extended amounts of time for example.

Automating Office Staff Time Consuming Absent Student Activities

In WeBSIS, unlike other systems, classroom assignments may be entered ahead of time and controlled by the instructor. It is this feature which allows an instructor to simply enter their assignments and then they appear on the absence assignment reports automatically. There is no need to send a sheet around to each instructor and have them write down what assignments a student has. The instructor may also enter individual comments on each assignment for a student with any specific instructions / information as well.

In addition, a parent may obtain this information directly from the student portal using the Course Information or Classroom Activities / Assignments EA's (Embedded Applications).

Office / Secretary New Report, Student Absent Assignments Report

This report assists office staff in automatically generating absent students assignments. In WeBSIS unlike other systems classroom assignments may be entered ahead of time and controlled by the teacher. It is this feature which allows a teacher to simply enter their assignments and then they appear on the absence assignment reports automatically. There is no need to send a sheet around to each teacher to find out what assignments a student has. The teacher may also enter individual comments on each assignment for a student with any specific instructions / information as well.

Application Location: EzStart -> School Reports -> School Reports -> Student Absent Assignments Report. Below is a screen shot of the new **Student Absent Assignments Report**.
